

## REMARKS

The specification of the present application has been amended to correct four obvious typographical errors. A duplicate sentence and drawing of a chemical structure are deleted on page 5, beginning at line 11. An obvious incorrect character represented as a box on page 5 in the first line of the last paragraph is replaced with the correct character "α" (alpha) in the sentence following the deleted chemical structure. At page 66, line 1, the term "TABLE 16" is corrected to correctly refer to "TABLE 15". Finally, the header line of TABLE 19, which appears at pages 89 to 90, is corrected to indicate that claims four and five refer to Affinity PPAR $\alpha$  and Affinity PPAR $\delta$  respectively, rather than Affinity PPAR $\gamma$ .

Claims 15 to 29 are cancelled. New claims 39 to 44 are added. Claims 14 and 32 are amended to remove multiple dependencies. The spelling of the word "therapeutically" was corrected in claims 33-38.

These amendments do not constitute new matter.

Respectfully submitted,

By:
